

<b>Poster</b>	<b>Authors</b>	<b>Day</b>
Semantic text analyzer for the Q&A systems	Arina Nuzhina	27.08.2018
Generative word embedding model for languages with rich morphological structure	Vitaly Romanov	27.08.2018
Profession classification based on Russian Unified rate-qualification catalog	Alexey Sotov, Vladimir Savelev	27.08.2018
Dynamics of #stophivaid's Campaign in Social Media: Case of vk.com	Alena Suvorova	27.08.2018
MARU: Morphological Analyzer for Russian Language	Vladislav Blinov, Alya Podrezova	27.08.2018
Information technologies for modelling crypto-currency values based on opinion of authorities, experts and population	Pavel Mogilev	27.08.2018
The Information Retrieval System for Scientific Social Networks	Yana Sedova	27.08.2018
Comparative Analysis of Software Defects Descriptions	Pankov Ivan	27.08.2018
Speak with me: retrieval approaches for dialogue agents	Sergey Kolesnikov, Alexander Nikitin, Vitaly Davydov	27.08.2018
Keyword extraction via machine learning	Olga Shinshinova	27.08.2018
Brief introduction to Triclustering	Dmitrii Egurnov	27.08.2018
Approaches and implementations for binary classification for texts with additional meta-	Ivanitskiy Ilya	27.08.2018
Global Processes Monitoring System on Basis of Internet News	Irina Shalyaeva	27.08.2018
PascalABC.Net code visualization to simplify education process	Ivan Goncharov	27.08.2018
Accident Recognition via 3D CNNs for Automated Traffic Monitoring in Smart Cities	Mikhail Bortnikov	27.08.2018
ICD code assignment on electronic health records	Ilnur Garifullin, Elena Tutubalina	28.08.2018
Early Detection and Tracking of Psychological Disorders Markers in User-Generated Content	Esteban A. Ríssola, Fabio Crestani	27.08.2018
Development of a text-analytic tool based on Corpus of Russian academic texts	Anna Dmitrieva, Mariia Fedorova, Aleksandr Klimov, Anastasiia Baranchikova	27.08.2018
Multi-label Class-imbalanced Action Recognition in Hockey Videos	Konstantin Sozykin et. al.	27.08.2018
LSTM-CRF for Named Entity Recognition in Russian	Daniyar Mazitov	28.08.2018
Utilizing CNN to predict claps for a Medium post	Vladislav Kashirin, Maxim Yagafarov	27.08.2018
Exploring baseline methods for concept mapping in social media posts	Ekaterina Sinkovets, Enzhe Gilyazova	27.08.2018
Anaphora Resolution for Russian	Dinar Abdullin	28.08.2018
Core-periphery Communication and The Success of Free/Libre Open Source Software	Kevin Crowston, Ivan Shamshurin	27.08.2018
Text summarization and related tasks	Dmitrii Pankov	27.08.2018
Insert Your Title Here. Grammatical Disambiguation in the Tatar Language	Ramil Gataullin, Rinat Gilmullin, Bulat Khakimov	27.08.2018
Using semantic analysis of texts for the identification of drugs with similar therapeutic ef	E. V. Tutubalina, Z. Sh. Miftahutdinov, R. I. Nugmanov, T. I. Madzhidov, S. I. Nikolenko, I. S. Alimova, and A. E. Tropsha	27.08.2018

<b>Poster</b>	<b>Authors</b>	<b>Day</b>
Text Addressee Identification	Anna Glazkova	28.08.2018
Terms and relationships extraction for specific domains to learning support	Anton Anikin, Mikhail Denisov, Alexander Katyshev	28.08.2018
Textual Features of Russian Popular Music	Alina Bakhitova, Anna Golovchenko, Vasilina Charushina	28.08.2018
Detection of clouds on satellite images for precision agriculture problems	Gazizov M., Boyko V	27.08.2018
Deep Character Level Convolutional Network for Text Classification	Nikita Savelyev	28.08.2018
Healthcare-related data analysis of users of mobile application for medicine search	Ignatiev Lev and Maryina Vitalia	28.08.2018
Prediction of Twitter Message Deletion	Alisa Gazizullina	28.08.2018
Named Entity Recognition in Microbiology	Viktor Timokhov	28.08.2018
People Who Viewed This Item Also Viewed Recommendations in Yandex.Market	Tim Alexeevskiy, Michael Denisenko	28.08.2018
The influence of morphological tagger performance on dependency parsing quality. Russian language-based case study	Denis Kirjanov	27.08.2018
Cognitive Simulation of Machine-Aided Translation Process	Evgeniya V. Kotelnikova	28.08.2018
Multi-View Personality Profiling Based on Longitudinal Data	Kseniya Buraya, Aleksandr Farseev, Andrey Filchenkov	28.08.2018
Using Convolutional Neural Networks for Sentiment Attitudes Extraction from Analytical	Rusnachenko N., Loukachevitch N	28.08.2018
MOGAN: an Adversarial Model for Multi-Objective Optimization in Recommender Systems	Zhe Li	28.08.2018
Using denotation graph in natural language processing systems as the way of word sen	Aleksandr Perevalov, Daniil Kurushin	28.08.2018
Enhancing Efficiency of Web Search Engines Through Ontology Learning	Eslam Amer	28.08.2018
Digital Cultural Heritage Infrastructure. Documenting Virtual Museums	Nadezhda Povroznik	28.08.2018
A New Algorithm of Word Embedding Via PSD-matrix Factorization	Tikhonova Maria	28.08.2018
How to measure semantic similarity of texts?	Kriukova Anna	28.08.2018
Cleaning up after a Party Post-processing Thesaurus Crowdsourced Data	Pavel Braslavski, Oksana Antropova, Elena Arslanova, Maxim S	28.08.2018
User Information Seeking Behavior in Dialogue Based Multimodal Information Retrieval	Abhishek Kaushik	28.08.2018
Speech Replay Spoofing Attack Detection System.Based on Fusion of Classification Algorithms	A.A.Lependin, Y.A.Filin	28.08.2018
Characterising the Behavior of People with Mental Illnesses in Online Social Networks. A practical implementation applied to users with suicidal tendencies	Diana Ramirez	28.08.2018
Multilingual Thesaurus in Information System for Scientific and Educational Activity Support	Madina Sambetbayeva, Anatolii Fedotov	28.08.2018

<b>Poster</b>	<b>Authors</b>	<b>Day</b>
Creation of tools and algorithms for assessing the relevance of documents	Aigerim Yerimbetova, Feodor Murzin	28.08.2018
A Hybrid Model for Feature Selection and Classification of Biomedical Data using Deep	Sadegh Salesi	28.08.2018
A Genre-Based Item-Item Collaborative Filtering: Facing the Cold-Start Problem	Mahamudul Hasan	28.08.2018
Cleaning up after a Party: Post-processing Thesaurus Crowdsourced Data	Maxim Shaposhnikov, Elena Arslanova, Oksana Antropova, Pa	28.08.2018
N-gram based extraction of lexicographically relevant data from a multilingual corpus of legal texts	Andrei Nosov	28.08.2018
Automatically methods naming in object-oriented programming	Alla Levina	28.08.2018
Scalable classification system for retail	Pavlovskaja Natalia	28.08.2018
Toxic Comment Classification Based on Deep Belief Network and Softmax Regression	Fedor Vitiugin	28.08.2018
Multi-word Term Extraction from Domain-specific documents	Maria Karyaeva	28.08.2018
Classifying Misogynistic Tweets Using a Blended Model: The AMI Shared Task in IBEREVAL 2018	Elena Shushkevich	28.08.2018
Learning Word Embeddings For Low Resource Languages: The Case Of Buryat	Konovalov V.P., Tumunbayarova Z.B.	28.08.2018
Vecto: A Framework for Learning and Evaluating Linguistic Representations of Meaning	Anna Rogers, Bofang Li, Roman Suvorov, Amir Bakarov	28.08.2018
Building Classifiers with GMDH for Health Social Networks (BD AskaPatient)	Liliya Akhtyamova	27.08.2018
Reinforcement Learning for Portfolio Management	Daniil Chepenko	28.08.2018
N-gram based extraction of lexicographically relevant data from a multilingual corpus of	Andrei Nosov	27.08.2018
The methods of estimation of the degree of similarity of sentences in a natural language	T.V. Batura, F.A. Murzin, A.M. Bakiyeva, A.S. Yerimbetova	27.08.2018
Research Project	Kashyap Raiyani	27.08.2018
Identifying Comparative Questions on the Russian Web	Alexander Bondarenko, Michael Völske, Pavel Braslavski, Matthias Hagen	27.08.2018
Explaining Large Errors in Retail Forecasting Predictions	Ana Lucic, Hinda Haned, Maarten de Rijke	27.08.2018
On TREC's 2018 Precision Medicine Track	Alexandros Bampoulidis	27.08.2018
Example-Based Machine Translation of Short Phrases Using the Context Equivalence F	Konstantin Tretyakov	27.08.2018
External information for business process prediction	Anton Yeshchenko	27.08.2018
Utility Models for Complex Search Tasks	Lucas C. Lima, Rodrygo L. T. Santos	27.08.2018
Evaluation Metrics of Relevance and Trust	Dongsheng Wang, Jakob Grue Simonsen, Christina Lioma, Birger Larsen	27.08.2018
Information Retrieval project	Anastasia Gaydashenko, Alexandra Malysheva	27.08.2018
